TRUTH-IN-SAVINGS DISCLOSURE

The Board of Directors of the Credit Union has adopted a policy to disclose the terms and conditions for all savings account programs offered at the Credit Union. The Credit Union is a member-owned financial cooperative that pays dividends to our members based on current income and available earnings, after required transfers to reserves at the end of a dividend period. Therefore, future dividend rates cannot be guaranteed.

We reserve the right to modify/cancel any deposit program at any time. DIVIDENDS begin accruing on the first day of deposit.

DIVIDEND CALCULATION METHODS

All Non-Term Savings/Checking Accounts:

Minimum balance requirement must be met to earn dividends each day.

Formula:

Dividends are calculated by the daily balance method which applies a daily periodic rate to the balance in the account each day. Dividends are compounded monthly and will be credited monthly. Ending daily balance x dividend rate divided by 365 = Daily Accrued Dividend.

Certificates (Term Accounts):

3-Month to 60-Month Term

Member's choice of:

- A. Dividends are compounded monthly and will be credited monthly or upon closing:
Balance x dividend rate divided by 365 = Daily Accrued Dividend.
- B. Dividends are compounded at maturity and will be credited at maturity or upon closing:
Balance x dividend rate divided by 365 = Daily Accrued Dividend.

Periodic Rate:

The periodic rate is annual dividend rate divided by 365.
